Presentation Tips: Images and Backgrounds

Keep your audience focused on your topic by adding **images** to your slides.
Make sure your images are large enough to **be seen from a distance** and **support your text**.
Background colors and styles can help to enhance your presentation.

Adding **shapes** and filling in boxes with **colors** can also enhance your slides.
Just make sure you are consistent with your changes on each slide.
Some presentation programs, such as Microsoft PowerPoint, have **design templates** you can use to change all of your slides at once.
When changing colors and backgrounds, make sure the colors you select allow your slides to be **clearly seen** and **read** by your **audience**.
